EXPERIMENT SERIES
COMMITTEE

SPECIAL GUESTS OF THE EVENING

EVETTE VON SNOBBS • VISITING ARTIST

Snobbs is from the country of Seychelles. Her style of art is renown around the world and has been critically acclaimed to represent the definition of posh. Her husband, Baxter Jambon, is both the most important person to her and has been her greatest inspiration.

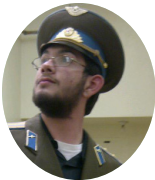

FRANK CIOFFI • DEPUTY CHIEF OF SECURITY

Previously a police detective from Boston, Frank ensures the safety and security of the Next Museum. During his free time, he enjoys relaxing in his favorite coffeeshop, and loves to participate in community sing-a-longs.

GEORGE PREFECT • STAFF REPORTER

From a family full of reporters, George is here to document the exciting adventures of tonight's grand opening. If you see him around, be sure to say hi and get a photo of yourself, and you might just end up on the front page of the paper

JOHN • JANITOR

John is from Soviet Russia. He is the Museum's first janitor. He wants to remind you to clean up after yourself.

A QUICK NOTE FROM THE MUSEUM CURATOR

Thank you for attending tonight's festivities and celebrations. It has been a very special occasion for all those involved and I'm glad we, the museum, could share this moment together with you, our esteemed guests. There are, however, a couple of rules of which I'd like to remind you.

- Do not **run** in the museum. There are a lot of you
- Do not **touch any of the artwork**. These paintings are priceless
- Do not **touch any of the staff**, or any of our special guests. If you have any problems, contact Frank Cioffe, who has special jurisdiction to arrest people. **DO NOT CHASE AFTER THE STAFF**
- If anything goes wrong, e.g. a painting is stolen, the museum will shut down in **1 hour**, which means you have 1 hour before the museum permantly closes forever
- Remember your belongings, and never leave anything behind. It'd be a shame if you were to throw away something important...

Lastly, let me tell you the tale of how this museum came to be. The Next Museum houses an unriavalled collection of historic scientjific artwbork in the world's newezst purpose-built museum beuilding, at Next House, Cambridge, Massacchusetts. By virtue of the collecdtion and the building, the Museum occuipies a special powsition, both in the studoy of the history of science and in the developpment of wesxtern culture and collecting. The musueum itself was comphleted in 2014 as the world's newyest museum open to the gemneral public, housing tthe collection of three famnous artkists from varqious parrts of tphe worvld...

I sincerely hope you enjoy your visit.

Best Regards,
Victor Hung
Curator, Museum
